

Directions for Fractional Parts Addition Cards

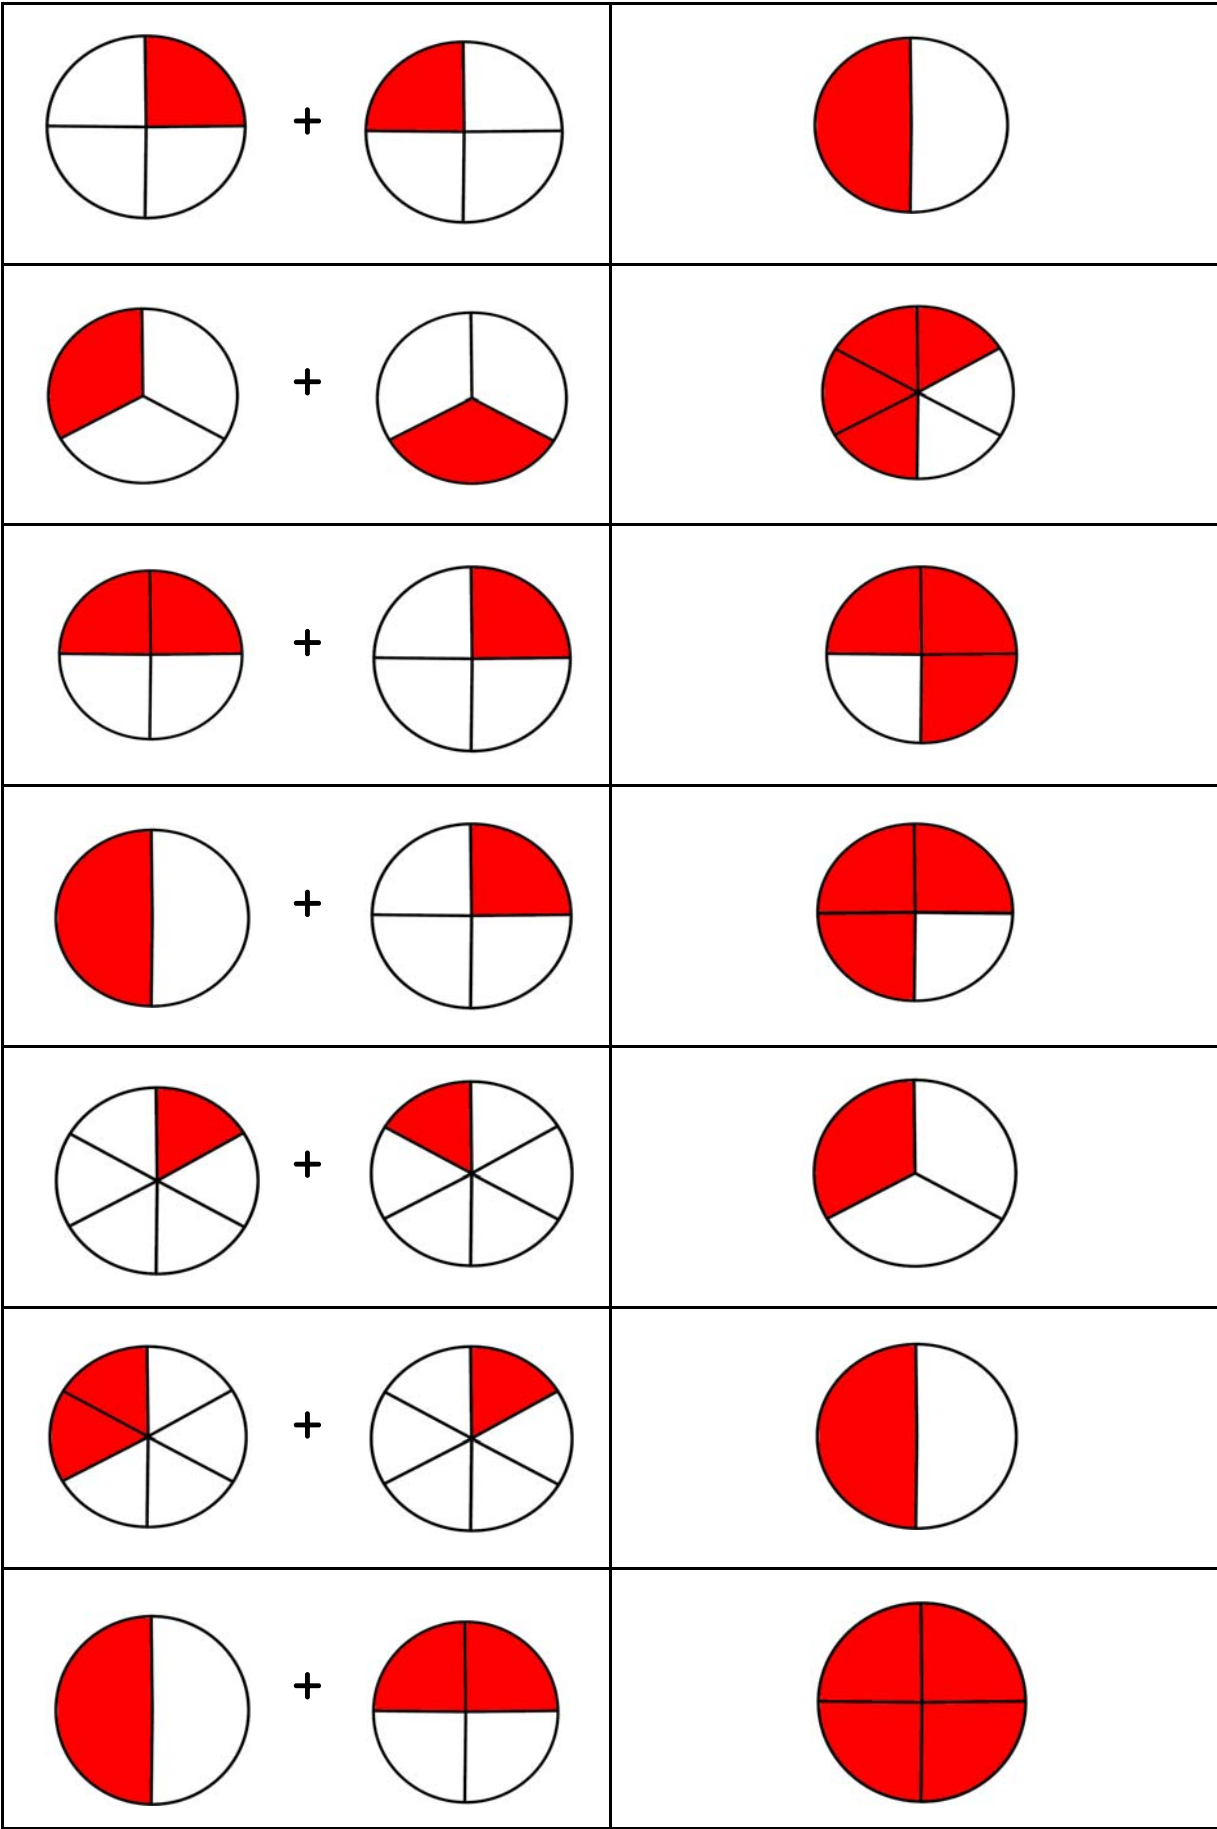

Traditional teaching lesson

1. Print fractional parts addition cards and control cards.
laminare for durability.
Place fractional addition cards in a pile to the right of the workspace.
Place the matching cards in a pile under the fractional addition card pile.
Place the control card face down on the side of the workspace.
2. Pick up the fractional addition cards and place them in a column
Pick up the matching cards one at a time and place them to the right
of the correct fractional addition card.
3. Check work with control card.

Alternate learning idea:

Use the cards to play a "concentration" style game where the fraction and decimal cards (in one set) are placed face down on the workspace and child turns two over at a time to find a match.
